

Package ‘ITALICSData’

April 24, 2025

Version 2.46.0

Date 2008-05-01

Title ITALICSData

Depends R (>= 2.0.0)

Author Guillem Rigaiil

Maintainer Guillem Rigaiil <italics@curie.fr>

Description Data needed to use the ITALICS package

License GPL

URL <http://bioinfo.curie.fr>

biocViews ExperimentData, HapMap

git_url <https://git.bioconductor.org/packages/ITALICSData>

git_branch RELEASE_3_21

git_last_commit c440a82

git_last_commit_date 2025-04-15

Repository Bioconductor 3.21

Date/Publication 2025-04-24

Contents

Hind.QuartetEffect	2
Nsp.QuartetEffect	2
quartet	2
snpInfo	2
Sty.QuartetEffect	3
Xba.QuartetEffect	3
Index	4

Hind.QuartetEffect	<i>Hind.QuartetEffect</i>
--------------------	---------------------------

Description

It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.

Nsp.QuartetEffect	<i>Nsp.QuartetEffect</i>
-------------------	--------------------------

Description

It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

quartet	<i>Quartet Info example for the vignette</i>
---------	--

Description

An example for the vignette

Usage

```
data(quartetInfo)
```

snpInfo	<i>snp Info example for the vignette</i>
---------	--

Description

An example for the vignette

Usage

```
data(snpInfo)
```

Sty.QuartetEffect *Sty.QuartetEffect*

Description

It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.

Xba.QuartetEffect *Xba.QuartetEffect*

Description

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.
